

Presenting the

Wave[®] premium bundle for iPod[®]

Love your iPod or iPhone? Love it even more with award-winning Bose[®] sound. This specially priced bundle has just what you need, plus our deluxe remote control.

The Wave[®] Music System plays CDs and FM/AM selections in surprisingly detailed sound from a sleek, one-piece tabletop unit. Here, you can order it with a connect kit for iPod. Just add your iPod to hear your favorite music in acclaimed Bose sound.

This customized kit seamlessly integrates your compatible iPod and Wave[®] Music System. It features a dock to play and charge the iPod, plus cables, updated one-piece power cord and illustrated owner's guide.

The Wave[®] Premium Backlit remote has a larger, rounded design that's comfortable to hold, with lighted buttons for low-light conditions. It controls the system and scrolls through tunes on your iPod playlists. Powerful IR emitters mean you don't have to point this remote at your system—just use it like a keypad in the included stand.

With this handy music system package from Bose, it's easier than ever to use your Wave[®] Music System as iPod speakers. Your iPod docks and recharges conveniently, and plays at the touch of a button.

iPod not included

KEY FEATURES:

Waveguide speaker technology

Just as a flute strengthens a breath of air to fill an entire concert hall, this Bose[®] breakthrough produces rich, clear stereo sound from a small enclosure

Slot-loaded CD player easily loads CDs or MP3s from a CD-R/RW. The front-loading design permits more placement options than traditional bookshelf stereos.

Large visual display with extra text information

Easy to see and understand with adjustable brightness and automatic night time display dimming. Can display track title and artist on suitably encoded MP3 CDs.

Digital AM/FM tuner with seek function

Easy access to your favorite radio music and programs with built-in AM/FM antennas. And easily recall your favorites with memory settings for six AM and six FM stations.

Automatic ramping

To deliver a more pleasant listening experience, volume starts low and gently increases when the unit is turned on or when an alarm is activated.

Shielded speakers

Prevents TV and computer picture interference so you have more flexibility to place your system where you want.

Headphone jack for private listening.

Auxiliary input jack

Connect another component to enjoy the rich, full sound of the Wave[®] Music System with your TV, computer or other audio source.

Bose[®] link

Allows seamless hookup to a Lifestyle[®] system that makes your Wave Music System become part of a multi-room expansion solution that lets you enjoy sound throughout your home.
