

Your movies, music and sports deserve superior Bose® sound.

Acoustimass® Home Entertainment Speaker System Family

### Acoustimass® 15 Series II Home Entertainment Speaker System

If you're a discriminating component-minded consumer who is passionate about home theatre and music, the Acoustimass® 15 Series II Speaker System was engineered with you in mind.

Our best home entertainment speaker system works with your components to deliver superior, lifelike sound from small speakers that blend easily into your décor. It also offers our most powerful low-note reproduction and is upgradable to 6.1 channels of sound for an even more realistic, cinema-like experience. This Virtually Invisible™ speaker system brings the performance home as never before.

Acoustimass 16 Module

#### Key benefits:

- Five cube speaker arrays have Direct/Reflecting® speaker technology to deliver lifelike, spacious sound throughout the listening area.
- Powered Acoustimass module with three 5 1/4" high-excursion woofers reproduces deep, dramatic movie special effects, while music sounds full and natural.
- Bose patented signal processing circuitry delivers the impact of movie effects and music – even at low volume levels – while dialogue sounds natural.
- Magnetically shielded cube speakers prevent interference with the TV picture.\*
- Compatible with 5.1 or 6.1 (with optional 6.1 upgrade speaker kit to add centre surround channel) channel receivers rated 10 to 200 watts per channel and rated 4 to 8 ohms.\*
- Warranty: Limited five-year transferable warranty on speakers; limited one-year warranty on amplifier and electronics.\*
- Colour: Black or Arctic White.

### Acoustimass® 10 Series III Home Entertainment Speaker System

Our most popular home entertainment speaker system delivers high-quality, lifelike sound.
