

Spread the Music throughout your home

Our best-performing landscape speakers deliver our widest outdoor sound coverage even while blending into the scenery. And the easily concealed SA-3 stereo amplifier connects to your Lifestyle® system to extend its performance outdoors.

Enjoy the magic of music outdoors by extending your Lifestyle® system with our FreeSpace™ 51 Environmental Speakers/SA-3 Amplifier Package. Our best outdoor speaker package delivers 360-degree sound coverage, whether you're basking by the pool or enjoying a tea in your balcony. With this package the kids can simultaneously watch the latest action-packed DVD in surround sound inside while you listen to music outside. All from the same system, equipped with Bose link.

Easily control your Lifestyle® system with the Personal™ Music Centre II that comes a part of this package. The Personal™ Music Centre Provides complete, interactive control of your Lifestyle® 48 or 38 media centre, as well as most commonly attached components: TV, VCR, and more. Also accesses digitally stored CDs in uMusic™ system. Slim and elegant design, with a backlit LCD screen.

FreeSpace 51 speakers are our best landscape speakers, easily suited for in- or on-ground placement and thoughtfully designed to blend with backyard greenery. Their unique design includes a centrally located port to enhance low-frequency reproduction, leaving a lasting impression outdoors. A domed grille resting over that port reflects pure high notes into the listening area with clarity and consistency. And they're guaranteed for five years—in any and every weather condition. The Bose innovations found in these speakers make listening outdoors a true pleasure.

Experience the best your music has to offer like never before outdoors.

Key Features

FreeSpace™ 51 Environmental Speakers

- Full-range, 360-degree coverage over a very wide listening area.
- Great versatility: can be freestanding on or around decks and patios, secured in the ground or mounted onto hard surfaces.
- Exceptionally rugged, durable construction for year-round dependability.

Lifestyle® SA-3 Stereo Amplifier

- Allows for Bose link connectivity.
- Bose patented signal processing circuitry: Automatically adjusts tonal balance at different volume levels.
- Thermal compression circuitry: Provides automatic protection for the amplifier electronics.

Personal™ Music Centre II

- Provides complete, interactive control of your Lifestyle® 48 or 38 media centre, as well as most commonly attached components: TV, VCR, and more.
- Allows access to digitally stored CDs in uMusic™ system.
- Slim and elegant design, with a backlit LCD screen.

20' Bose link A extension/expansion cable

- Connects an SA-2 or SA-3 amplifier to a Lifestyle® system media centre.
- Extends the original audio input cable connection.
- Provides greater flexibility in expanding a Lifestyle® system to an additional listening area.
