

Spread the Music throughout your home

Take the performance of your Lifestyle® system beyond the confines of four walls, and bring Bose quality sound outdoors. Our 151® SE environmental speakers/SA-2 amplifier package is ideal for enjoying the music you love most

when the weather is at its best—and even when it's not. And while you're listening to music outdoors, select Lifestyle® systems let others enjoy the thrill of surround sound home theatre indoors. At the same time, from the same system. It all comes together with Bose link.

Listen to your music outside while controlling your Lifestyle® system stationed inside, with the Personal™ Music Centre II that comes a part of this package. The Personal™ Music Centre II provides complete, interactive control of your Lifestyle® 48 or 38 media centre, as well as most commonly attached components: TV, VCR, and more. Also accesses digitally stored CDs in uMusic™ system. Slim and elegant design, with a backlit LCD screen.

Our elegant 151™ SE speakers use an Articulated Array™ speaker design for Stereo Everywhere™ speaker performance by the pool, on the deck or wherever you listen outside of your home. Enjoy consistent, year-round sound through a wider listening area, not just one "sweet spot" as most conventional speakers offer. Complete with brackets, our most popular outdoor speakers can be mounted horizontally or vertically to fit the contours of your home. And they're guaranteed to withstand the harshest elements for five years.

Key Features

151™ Environmental Speakers

- Stereo Everywhere® speaker performance delivers balanced stereo sound over a wide area.
- Sleek, compact cabinet provides a neat, low-profile appearance – either horizontally or vertically.
- Exceptionally rugged, durable construction delivers year-round dependability.

Lifestyle® SA-2 Stereo Amplifier

- High-quality sound performance: Bose patented signal processing circuitry enables full, rich stereo sound, even at low volumes.
- Easy hookup: Connects to Lifestyle® systems with a single Bose® expansion cable.
- Easy, elegant placement: Small footprint allows amplifier to easily be hidden in a room. Mounting flanges included for mounting to wall or floor joist.

Personal™ Music Centre II

- Provides complete, interactive control of your Lifestyle® 48 or 38 media centre, as well as most commonly attached components: TV, VCR, and more.
- Allows access to digitally stored CDs in uMusic™ system.
- Slim and elegant design, with a backlit LCD screen.

20' Bose link A extension/expansion cable

- Connects an SA-2 or SA-3 amplifier to a Lifestyle® system media centre
- Extends the original audio input cable connection
- Provides greater flexibility in expanding a Lifestyle® system to an additional listening area
